※For the latest information, please visit the au website.

【Calls】★1: ※With the au International Calling Service, each month up to 60 of 15-minute-or-less calls made from Japan beginning with 010 to specific countries and regions will be free of charge. From the 61st call, an additional call charge of 300 yen per call will be incurred. Regardless of the number of calls, any call exceeding 15 minutes will be subject to an additional charge of 20 yen per 30 seconds after 15 minutes have elapsed. ※Making and receiving calls abroad, sending SMS, calls to satellite phones, calls to phone numbers specified separately by us, etc. will not be eligible for the free calls offered for this option. There may be other instances in which this free call option does not apply. ※Calls not covered by this free call option will be charged according to the relevant service rules (different call charges apply for some calls such as calls to satellite phones). ★2: You may dial 005345 instead of 010. ※The number of calls made will be calculated based on Japan time. Calls that carry over into the following month (Japan time) will be counted as having been made during the month in which the call ended. ※If the line is transferred or succeeded, the number of calls made will be carried over. ※The number of calls and other aspects of the usage status can be checked on My au or by calling the Customer Support Center (up to the previous day's usage). ※au International Calling Service limits monthly usage (at 30,000 yen). Usage will be stopped the moment that KDDI confirms that the charges have exceeded the 30,000-yen limit (the flat-rate fee and additional call charge of this option are not included in the call charge limit). Service usage may also be temporarily suspended until payment of said call charges has been confirmed. ※Calls to countries and regions may not connect depending on the facilities and situation of the local provider.

【How fees are applied】※Fees apply from the month following the month you sign up. If you cancel an optional service or cancel your subscription in the middle of the month, the fee will not be prorated, and the flat-rate fee will be incurred. ※If this optional service is terminated in the middle of the month, including but not limited to the reason of changing to a non-included Flat-rate Data service, flat-rate calls will be permitted only while said Flat-rate Data service is applied. ※Consumption tax will not be added to the charges for international services. ※Information on this flyer is current as of March 1, 2026.
